

# Holiday

**Type:** Cryptography

**Difficulty:** ☐ Warmup

**Flag:** `TFCCTF{don't_come_today_there_are_dogs}`

**Points:** 50

## Description

---

I've always wanted to visit my friend! He's not fluent in English, but he does know a few words. This made communicating a problem. We did, however, talk about each other a lot! He knows I'm allergic to dogs, and I know that his favourite colour is green! Before leaving for the airport, he left me a message. He's not much into technology so his crypted message really confused me! Can you tell me what he said?

Maui: mai hele mai i kēia lā aia nā 'Īlio

## Solution

---

The cipher used for this challenge is called: language!

We just use Google Translate to translate what Maui said, and wrap the result in `TFCCTF{}`.

After doing that, we get the flag: `TFCCTF{don't_come_today_there_are_dogs}`
